BRAND IDENTITY

More than a stay — a place that feels like home, from day one.

At Akora, we design our apartments for people who stay a little longer — remote workers, relocators, and curious travelers. Everything is set up for comfort, focus, and calm. No hotel vibes, no impersonal platforms — just real homes, thoughtful service, and neighborhoods that help you feel part of the city.

Feel at Home

We get it, if you stay longer in a city, you don't want to feel like you are in a hotel, but you actually want to LIVE in that city. That's why we offer you our beautifully furnished apartments with everything you need, from modern kitchens to fast WiFi and cozy living spaces.

LOGO

PRIMARY LOGO

The Akora logo is an important brand signifier and must be used with care. Always follow the guidelines included here when using our logotype and mark.

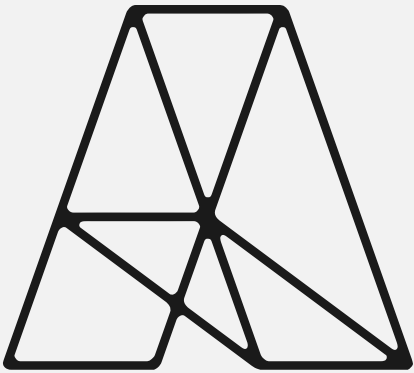

LOGO

SECONDARY LOGO

Our mark is a valuable secondary brand identity asset; it should be used sparingly and with intention according to these guidelines.

CONSTELLATION

LOGO

CLEAR SPACE

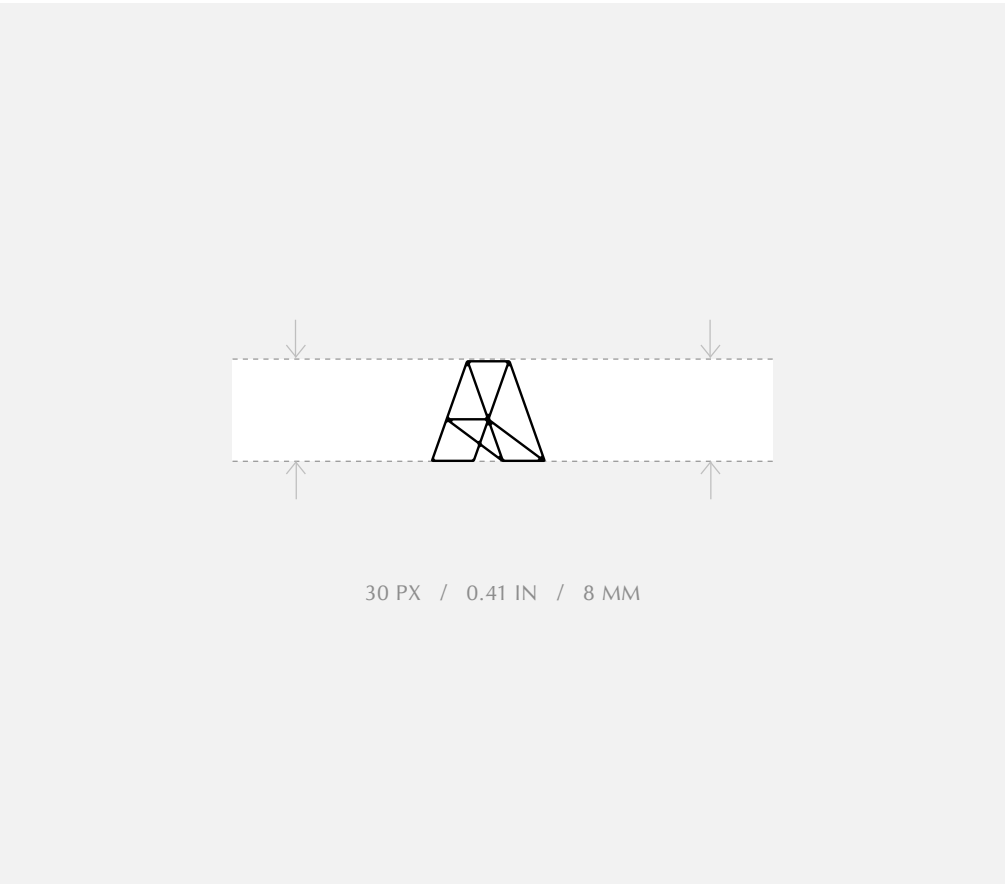

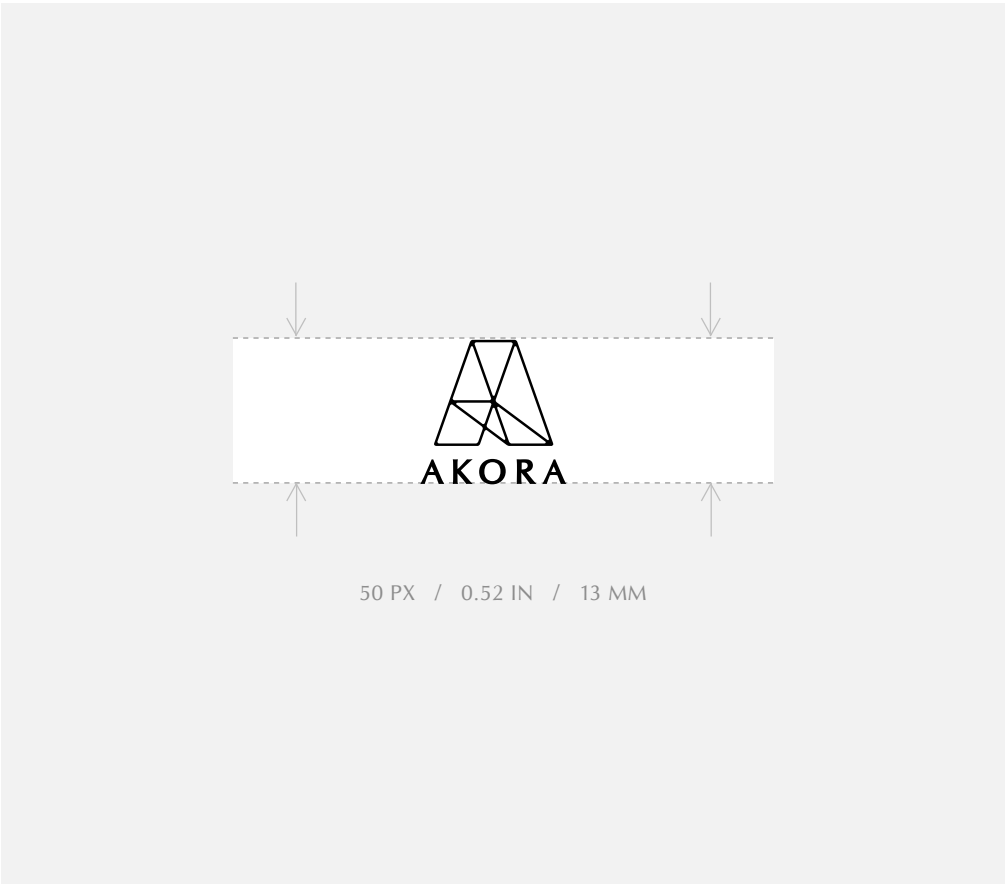

Logo - Clear space frames our logotype, separating it from imagery, headlines and the margins of digital or analog touch points. At a minimum, and at every scale, the logo should be positioned with clear space equal the height and width of the lockup.

Constellation - At a minimum at every scale, separate our constellation logo from any other compositional element by one radius-length (half the circumference of the mark).

MINIMUM SIZE

Logo - Our logotype must be large enough to be clearly visible in every application. The minimum height is 50 pixels / .052 inches / 13 millimeters.

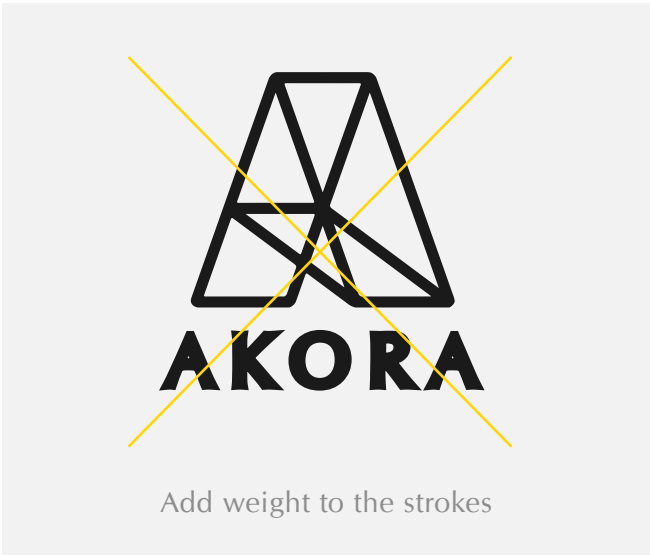

Constellation - As a mark our constellation logo can be identifiable at smaller sizes. The minimum height is 30 pixels / .041 inches / 8 millimeters.

LOGO

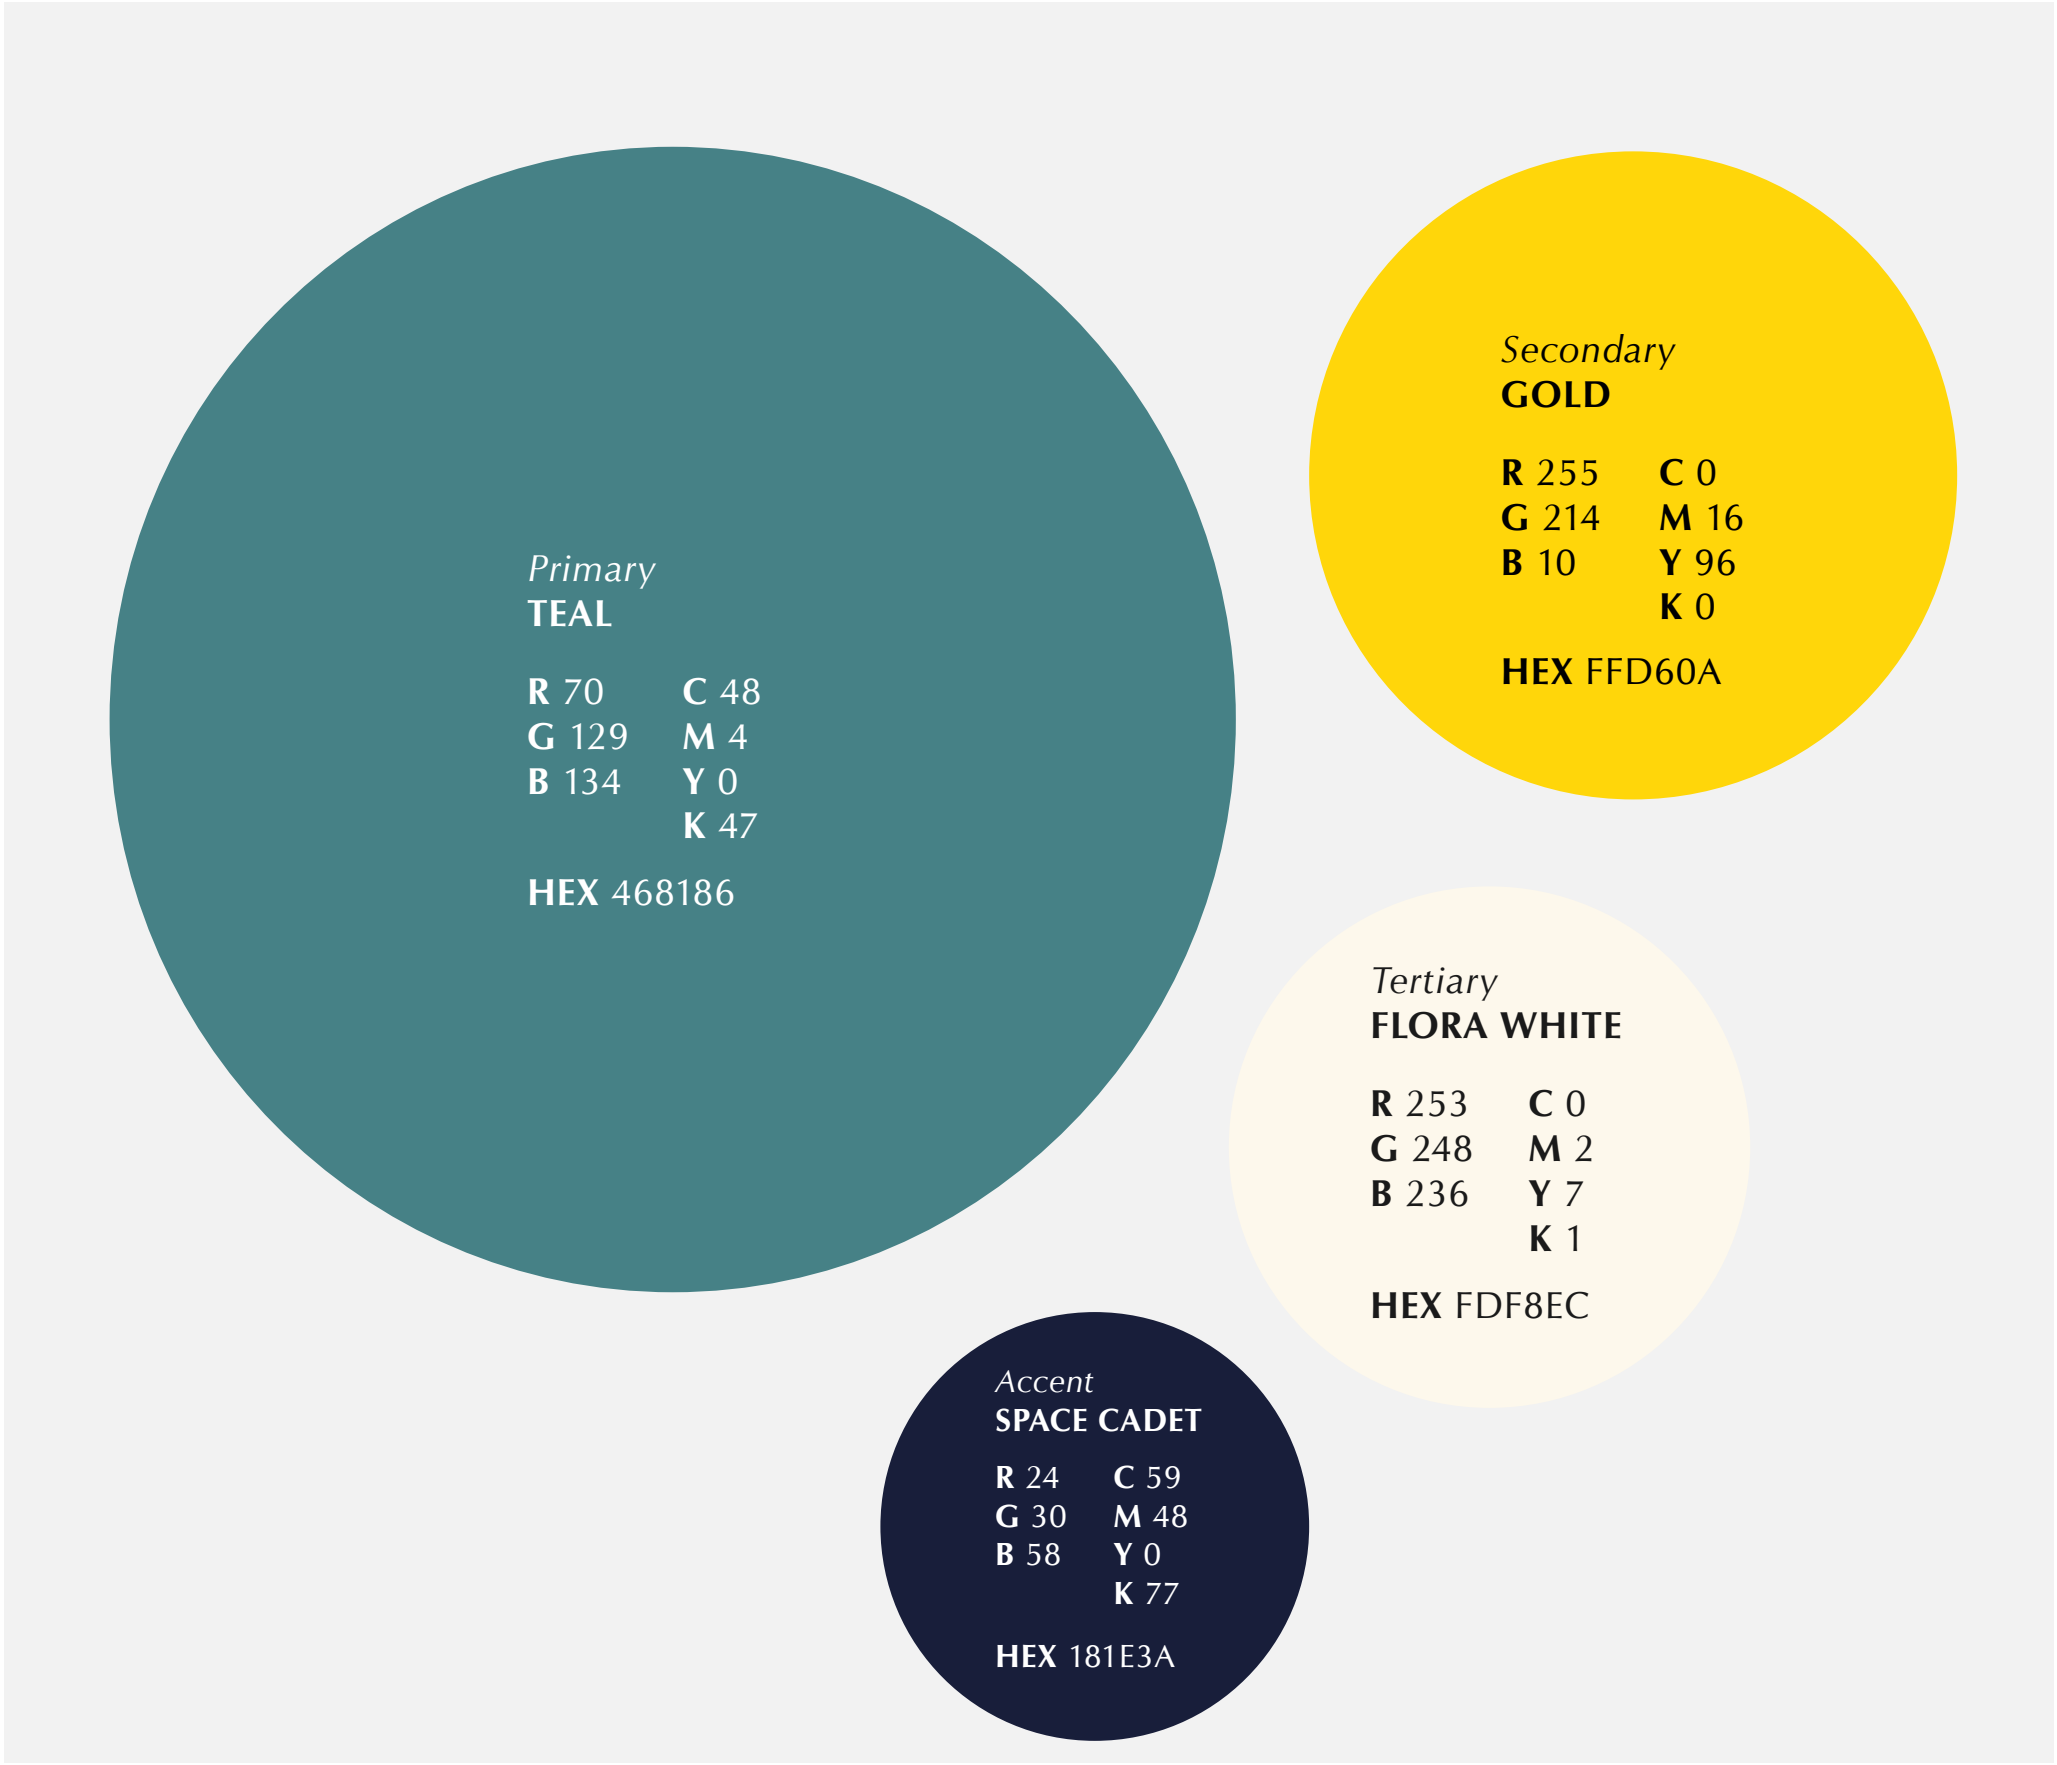

LOGO – DO NOTS

Here are some examples of what **not** to do with the Akora logo. The same applies to the constellation logo.

PALETTE AND COLOR HIERARCHY

Our brand color palette is intentionally rich. To act as a differentiator in the space, we primarily use our teal, gold, and flora white with the hierarchy of color in that same order. Our space cadet is used as an accent color.

TYPOGRAPHY

PRIMARY TYPEFACE

Our primary typeface is URW Classico, a elegant-feeling sans serif designed by Hermann Zapf. Use our primary typeface for headlines and to call special attention to content.

SECONDARY TYPEFACE

Our secondary typeface is Oliver Quin, a cursive, handwritten script to add a warm personal touch.

BODY TYPEFACE

Our body typeface is Avenir Book, a easy to read font that helps with legibility at small sizes.

BUSINESS CARD

Our business cards use the brands core colors with the primary purple on the front and beige on the reverse side.

LETTERHEAD

To signify warmth and quality, the preferred stock for our letterheads is thick and ivory in color. The suggested thickness of the paper would be 100lbs to 115lbs.

STATIONARY

ENVELOPE

Our envelope uses an orange stock. The Akora branding is shown on the front and on the reverse side, we include our core brand message; *Spaces to connect and live well.*

SIGNAGE

WAYFINDING

The wayfinding signage should be clear but also not compete with the interiors. This approach allows the brand to show through. The signage should be painted or cut from vinyl and the typography should be 2 inches tall.
